Flea Treatments

Q. What must you do before your home is treated for fleas?

- A.**
- 1) Vacuum all rugs, carpets, and furniture especially between and under cushions. Move and vacuum under upholstered furniture . Be sure to dispose of vacuum bag or empty canister when completed.
 - 2) Clean and clear all floors! Floors must be cleared of all objects to give your Pest Control Operator access to all floor surfaces. Mop all tile and vinyl floors. Sweep all concrete floors.
 - 3) Remove People & Pets! Pets cannot remain in the home during treatment. Fish bowls and aquariums may remain if properly covered, but ask your Pest Control Operator for specific directions.
 - 4) Clean Pet Bedding! Wash or dispose of all pet bedding. If laundering, wash pet bedding in hot water separately from other linens.
 - 5) Treat Pets for fleas: If your pet has fleas at the time of treatment, your pet **MUST** be treated for fleas. Our service personnel **DO NOT** treat animals; this can be done by a veterinarian, professional groomer, or by the customer with over-the-counter products.

Q. What will the pest control operator do to treat for fleas in your home?

A. A fine insecticide spray will be applied to all infected and potentially infested areas. These areas may include carpets, rugs, tile, furniture, pet bedding, pet resting spots, and under furniture cushions.

Q. Will all fleas die immediately after treatment?

A. Nearly all fleas present will be killed by the time you return home. However, don't be alarmed if you see some fleas a few weeks after treatment. These fleas are typically newly hatched from their protective pupal cases and will be killed by the residual effects.

Q. How soon can you vacuum following treatment?

A. Normal vacuuming can be resumed 24 hours after your home has been treated.

Please Note: People and Pets must be out of the home for at least 2 hours or until the insecticide spray is dry. Upon returning to the home please ventilate house, open windows, etc.

Flea Treatments are TEAM efforts.. It's very important you do your part well!!!
